

USA Spec PA11 Hon iPod Interface Connect, Charge, Control and Play your Apple iPod to your Acura/Honda Factory Radio

PA11– Hon Smart iPod Connector

Connects, Charges, Control, and Plays iPod through your OEM Volvo radio.

New Hybrid mode!!!

Combines both playlist mode and direct mode !!

Note: Not actual Image

Use your iPod to create up to 5 favorite mobile play lists. Then, access, play, and control each favorite play list with your factory radio's CD Changer/AUX/Band buttons.

Or manually control your iPod and access all your content to play directly through your factory radio. New Hybrid mode combines both playlist mode and direct mode. In Direct Mode, the factory radio will control song up/down and random or shuffle Play. User can control all features of the iPod manually.

Our iPod connector also adds an additional Auxiliary input into your factory radio for audio device such as DVD player, Satellite radio tuner, or MP3 player.

Compatible with all iPods including iPod Nano & Video

be disconnected.

* Simple package to buy, one box, includes all required cables!

* All USA SPEC PA series have an additional stereo Aux input for any other device.

* **New Hybrid mode - you are now able to search and select songs directly on your iPod as in direct mode or access your mobile play list through the factory radio.**
